BIGSO BOX OF SWEDEN™

ORGANIZING HOMES & OFFICES SINCE 1963

DESIGNS AND MANUFACTURES

Bigso AB is a Swedish family-owned business that designs and manufactures home and office storage solutions made from mostly recycled fiberboard. The company was created to support the needs of people looking for clever, sustainable and modern storage, which is still the core of our original business idea. What started in a small mill in southern Sweden 1963 has today grown to be one of the leading and respected brands for home and office storage solutions worldwide.

MADE IN EUROPE

Thanks to our customers support, we have grown and expanded into modern production facilities, but our original vision of supplying sustainable and clever storage solutions remains in our DNA, just as it did back in 1963 in that tiny mill.

We are delighted to share with you that manufacturing takes place in our own production facilities in the EU and our products are represented in over 60 countries worldwide.

FSC® CERTIFIED

We aim to make our impact on the environment as small as possible. That's why all our sites are certified under the FSC system.

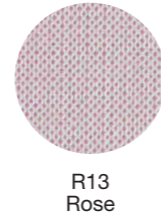

The Forest Stewardship Council certification ensures that the wood, paper and other forest products are sourced from forests managed in an environmentally appropriate, socially beneficial and economically viable manner and help protect forests for future generations. The FSC system also includes a chain of custody certification that traces materials and products from forest to end-user, giving consumers assurance about the origin of the wood and paper products they buy.

Trust in knowing that we are constantly developing our collection to be the leading brand for all kinds of storage needs wherever you call home.

RE-STORE PAPER LAMINATE COLORS & PATTERNS

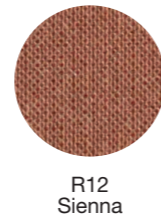

These laminates are made from 100% RECYCLED paper products, produced without chlorine or optical bleaching. The soft, subtle colors have names inspired from nature, such as Sand, Stone and Waves. We bring out the beautiful texture of woven textile and a hint of metallic printing by combining it with our classic satin frames and leather fittings. We call this new range "RE-STORE", because that is just what it is - recycled paper products remade into beautiful new storage items. By reusing what has already been used, we save our natural forests and get this lovely look.

CANVAS PAPER LAMINATE COLORS

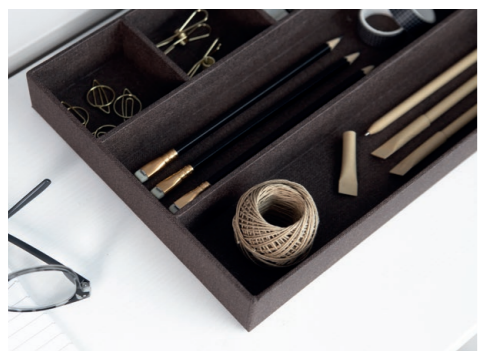

Bigso's most elegant collection is the Canvas collection. With its natural look of hand woven linen, you can both see and feel the texture on the embossed paper. The rustic look resembles an old book but with a modern touch. We combine the dark natural colors on the outside with black paper covering on the inside of the boxes and dark brown leather handles that are attached with silver colored rivets.

CLASSIC PAPER LAMINATE PRINTED PATTERNS

The paper laminate collection is clearly the most versatile where you can put your own mark. With a wide range of neutral colors along with the nordic color range, the combinations are endless. To complete the collection we add simple, stylish fittings so that you can store your things and find them easily. The label frames and handles come in satin, gold or black. In addition to our single color materials, we offer several patterned designs each year after carefully studying the market trends. This collection has something for every style.

FIBERBOARD / COLORS & PATTERNS

Fiberboard is the range that has been with Bigso since the start. Produced with recycled materials made from corrugated board and newspapers. The boxes are often combined with a protective but decorative metal edge and held together with rivets that make them stable and steady. The style creates a retro feel in today's modern homes. Practical storage for both the interior home and for areas that require more durable products such as basement or garage. The fiberboard products are perfect for collapsible boxes, providing durable boxes that are easy for the customer to assemble.
